HISTORICAL NOTES.

1839. By a resolution of the Mayor and City Council of the 7th of March, 1839, the Commissioners of Public Schools were requested to establish a High School, "in which the higher branches of English and classical literature only should be taught." This resolution was promptly carried into effect. The school was organized about the 20th of October of that year (Nathan C. Brooks, A.M., Principal), and was at first known simply as the High School.

In 1848 the Eastern and Western High Schools having in the meantime been established, this school was denominated the Central High School of Baltimore.

In 1851 (Francis Waters, D.D., Principal), "it was determined to reorganize the school upon a new plan upon its opening in September. This reorganization consists principally in dividing the course of study into distinct departments, and adopting a new order of exercises, and new regulations with reference to discipline. Each instructor is allotted to a particular department, and all the students in the school receive instruction from him in the studies of that department."—(School Report, 1851, p. 17.) The first Public Day for conferring the honors of the school was observed November 27, 1851.

In the autumn of 1857 (Thomas D. Baird, Principal,) under authority of an ordinance of the Mayor and City Council, the Board of Commissioners of Public Schools arranged with the Trustees of the Peabody Institute for the annual distribution of the prizes under the Peabody Foundation, and the prizes were accordingly first awarded July 22, 1858.

By an ordinance of the Mayor and City Council, approved October 5, 1866, the name of the school was changed to THE BALTIMORE CITY COLLEGE.

In 1877 the course of study was extended from four to five years.

## THE COURSE OF STUDY.

### FIRST YEAR.

ENGLISH COMPOSITION—Quackenbos' First Lessons. Practical exercises. Two hours per week.

ENGLISH LITERATURE (Shaw)—Beginning with the time of Chaucer, a general survey of the subject is had, preparatory to more detailed work on particular periods in the upper years. Only the more prominent authors are taken up, especially those of the eighteenth and nineteenth centuries; also, there is some study of the better known American authors. The students are particularly urged to read the standard writers for themselves, and to give some account of their reading to the class. Two hours per week.

LATIN—Gildersleeve's Primer. Thorough drill in the declensions of nouns, pronouns and adjectives; also in the conjugations of regular verbs. In addition, some practice is afforded in the uses of the subjunctive mood, together with exercises under the more elementary rules of syntax. Five hours per week.

ALGEBRA—Ray's Higher. Completed in one scholastic year. The work embraces the more difficult quadratic equations, with special artifices and solutions,

the progressions, the binomial theorem, indeterminate coefficients, series, continued fractions, the computing and uses of logarithms, the general theory of equations and Horner's method. Two hours per week.

**GEOMETRY (Plane).**—Three books of Wentworth. Copious exercises in constructions and loci; also theorems and problems involving the principles taught in the text. Completed in one scholastic year. Two hours per week.

**PHYSICS**—Gage's Elements of Physics. First three chapters. Physical properties of matter, dynamics and heat. Additional experiments and problems are provided. Special emphasis is laid on quantitative work. Two hours per week.

**UNITED STATES HISTORY**—Johnston's text. One hour per week. Beginning with the constitutional period, the class completes the book. Class is also required to memorize the Constitution of the United States.

**ENGLISH HISTORY**—Collier's British Empire completed. Two hours per week.

**BOOK-KEEPING**—Five sets—day-book, journal and ledger. Seven sets—day-book, journal, cash-book and ledger. Writing of commercial forms, viz., notes, drafts, bills, invoices, receipts, orders, due bills, checks, etc. Lectures on opening and closing books of account, trial balances, balance sheets, etc. Two hours per week.

**PENMANSHIP**—Once a week.

**DRAWING**—Geometrical designs from blackboard and by dictation. Conventionalized flower and leaf

forms in designs. Special practice from blackboard, and models for ability to execute bilateral symmetry. Free-hand drawing in outline from geometric models singly and in groups. The principles of light and shade. Execution in free-hand of pencil-shaded drawings from geometric models and common objects, such as vases. Two hours per week.

#### SECOND YEAR.

**ENGLISH**—Hepburn's Manual of Rhetoric. Reports on standard works in English literature. Lectures on journalism and on the English novel. Composition and declamation. Two hours per week.

**ENGLISH COMPOSITION**—Making abstracts from the works of standard authors. Reproductions in the student's own language of incidents from well-known works. Original compositions, chiefly of a narrative or descriptive character. Occasional exercises in dictation. One hour per week.

**LATIN**—The class completes and reviews the Latin Primer (Gildersleeve), and reads the Latin Reader (Gildersleeve), with a part of the fifth book of Cæsar. Four hours per week.

**GERMAN**—Exercises in grammar and composition, from Whitney's Brief Grammar. Translation of Schiller's "Neffe als Onkel." Three hours per week.

**GEOMETRY (*Plane and Solid*)**—To the end of the eighth book of Wentworth. Constant exercises in theorems and problems involving the principles previously taught. This latter work is, in part, assigned for home preparation, and in part for execution at sight. Four hours per week.

PHYSICS—Gage's Elements of Physics completed. Lectures by the instructor. Problems and experiments performed by the students. Two hours per week.

HISTORY—Myers & Allen's History of Rome completed. Constitution of Maryland. Two hours per week.

BOOK-KEEPING—Three sets—day-book, journal, cash-book and ledger. Five sets—day-book, journal, cash-book, sales-book, invoice-book, bill-book and ledger. Two sets—commission. Writing up the necessary forms for the above sets. Two sets—business practice. Business correspondence. Lectures on the science of accounts, business usages, etc. Three hours per week.

DRAWING—Conventionalized designs, cast in relief by shading. Original designing required. Special study of light and shade. Carefully shaded free-hand drawings from geometric models and common objects in groups. Elementary orthographic projection. Simple plans and elevation in mechanical and architectural construction. Two hours per week.

#### THIRD YEAR.

ENGLISH—No text-book used. Students are referred to books in the College Library. Lectures on the origin and history of leading English and American magazines. Composition and declamation continued. Three hours per week.

GERMAN—Translation of Schiller's “Tell.” Exercises in grammar and composition from Brandt's Grammar. Review. German conversation. Two hours per week.

**FRENCH**—Keetels' Analytical and Practical French Grammar. First thirty-four lessons. De Fivas' French Reader. Exercises. Complete course of French verbs. Three hours a week.

**LATIN**—The class reads four books of Cæsar and three of Cicero's Orations against Catiline, and also writes Latin exercises. Gildersleeve's Grammar and Exercise Book are used. Four hours per week

**GREEK (Optional)**—White's First Lessons is the book used. There is constant drill on accent, translating from Greek to English and from English to Greek, and on forms of declension and conjugation. After a fair acquaintance with verbs in "ω," short lessons from the Anabasis are given, once a week at first, gradually increasing in frequency as the year advances. Goodwin's Greek Grammar is used in connection with the First Lessons. Four hours per week.

**MATHEMATICS**—(a) Wentworth's Plane and Spherical Trigonometry completed. Four hours per week. (b) Arithmetic, algebra and geometry are reviewed by those students who do not study Greek. Four hours per week.

**CHEMISTRY**—Remsen's Briefer Course. Chemistry of metals and non-metals. Laboratory work by all students. Three hours per week.

**HISTORY**—Eastern Nations and Greece—Myers & Allen's text. Essays on historical characters. Each student is required to write one essay each quarter. Essays of the first quarter are on ancient, those of the second on mediaeval, those of the third on modern European, and those of the fourth on American characters. One hour per week.

**DRAWING**—Drawing from casts, especially of flower forms, with particular study of light and shade effects. Plans, elevations and sections in mechanical and architectural construction. Elementary isometric projection. The elements of designing on the vine motive. One hour per week.

#### FOURTH YEAR.

**ENGLISH**—The history of the English language (Lounsbury) is begun. Lectures on versification and the poets. Composition and declamation continued. Three hours per week.

**GERMAN**—Translation of Schiller's "Geisterseher." Brandt's Grammar and the instructor's prose compositions. Review. German conversation. Two hours per week.

**FRENCH**—The work of the preceding year reviewed. Keetels' French Grammar finished. Exercises. Chapsal's *Leçons de Littérature Française*. Twice a week.

**LATIN**—This class reads four Orations of Cicero, one thousand or fifteen hundred lines of Ovid and about two books of the *Aeneid*. It has also an exercise from English into Latin once a week. The text-book for this is Gildersleeve's *Latin Exercises*. Much more Latin is read by the method referred to in the account of the Greek classes. Four hours per week.

**GREEK**—About four books of Xenophon's *Anabasis* are read during the year, and generally one book of the *Iliad*. The *First Lessons* (White's) is used for exercises in translating from English to Greek. Good-

win's Greek Grammar is used. Much more of the Anabasis is read by having, each day, one of the students prepare a page from some book other than the first four, and translate it before the class. By calling on various members of the class to render small portions, an exercise in rapid translation is given. Four hours per week.

**MATHEMATICS**—(a) Bowser's Analytic Geometry. The straight line and the conic sections are treated. The plotting of curves, and problems in loci receive special attention. Three hours per week.

(b) Wentworth's Surveying and Navigation as a substitute for Greek. Four hours per week.

**ASTRONOMY**—Lockyer's Elements, to page 214. One hour per week.

**CHEMISTRY**—Remsen's Organic Chemistry. Chemistry of the carbon compounds. Laboratory work by all the students. Three hours per week.

**CIVIL GOVERNMENT**—Wilson's "The State." Lectures. Essays on historical subjects. One hour per week.

**DRAWING**—Ornamental designing on the vine motive. Isometric projection carefully studied. Mechanical and architectural drawing. Parallel and angular perspective. One hour per week.

#### FIFTH YEAR.

**ENGLISH**—History of the English Language concluded. Lectures on Shakspere, Bacon and Chaucer. Original speaking. Three hours per week.

**GERMAN**—Translation of Heine's "Harzreise" and Goethe's "Egmont." Instructor's prose composi-

tions and Brandt's Grammar. German conversation. Two hours per week.

**FRENCH**—Voltaire's "Histoire de Charles XII." General review of the grammar. Exercises on the leading features of the French syntax. Composition. Twice a week. In addition, a course in French reading and conversation is open to students of the fourth and fifth years. Once a week.

**LATIN**—This class reads four books of the *Aeneid* and generally two books of the *Odes* of Horace. It has also an exercise from English into Latin. Once a week. The text-book used for this purpose is Allen's *Introduction to Latin Prose Composition*. Occasionally a few of this class read *Livy* as extra work. Gildersleeve's *Latin Grammar* is used throughout. Four hours per week.

**GREEK**—This class reads generally three books of the *Iliad*, and one of the longer books of Herodotus. Some classes read the *Medea* instead. The quantity of Greek read is greatly increased by the method pursued in the second year of this course, the class using, however, Homer and Herodotus, instead of Xenophon. A written exercise from English to Greek is prepared weekly. Jones' *Greek Prose Composition* is the text-book. Four hours per week.

**MATHEMATICS**—Olney's *Calculus*. In the first half of the year differential calculus is taught, and in the second half, integral calculus. Four hours per week.

**CHEMISTRY**—For the first half of the year. Review of chemistry, with mineralogy and geology. Laboratory work by all students. Three hours per week.

PHYSICS—For second half of the year. Review of physics and chemical physics, supplemented by laboratory work by students. Three hours per week.

ASTRONOMY—Lockyer's Elements completed. One hour per week.

MENTAL PHILOSOPHY—The class studies the Mental Philosophy of Dr. Haven, including the department of the *intellect* and a part of the *sensibilities*. Two hours per week.

POLITICAL ECONOMY—First half of the year: Ely's Political Economy, with lectures. Essays on social topics. Visits to penal and reformatory institutions, and reports thereon. Second half of the year: Lectures on constitutional law or topics of the nineteenth century. Two hours per week.

Mental philosophy and political economy are taken only by those that do not study Greek.

DRAWING—Parallel and angular perspective. Charcoal drawing from groups of models and common objects, and from casts of flower forms and of sections of the human body. Pen and ink sketching. The orders of architecture and ornament. Execution of drawings shaded with brush in India ink and sepia. One hour per week.

## TERMS OF ADMISSION.

---

*The annual examination for admission* takes place in June. All boys in the eighth (highest) grade of the grammar schools who are at least fourteen years of age, of good moral character, and not otherwise promoted, and also boys who are not pupils of the public schools, may be admitted after passing a satisfactory examination in the studies pursued in said eighth grade.

Notice of the annual examination is given in the daily papers of Baltimore, at least ten days in advance.

By consent of the committee, a *special* examination for admission is held at the College every year, beginning on the first Wednesday after the opening Monday (usually the first Monday) in September, to accommodate only those who, for *good and sufficient reasons*, do not present themselves in June.

For the information of persons not familiar with the work of the eighth public school grade, it is stated that the examinations above indicated embrace spelling, reading, writing, grammar, composition, arithmetic, algebra through quadratic equations, the first, second and fourth books of Davies' Elementary Geometry (or an equivalent), geography, history of the United States, physiology and elementary physics.

## NON-RESIDENT STUDENTS.

---

Students whose parents or guardians are not *bona-fide* residents of Baltimore must pay \$50 per annum for tuition and use of books. This sum is payable quarterly, *invariably in advance*, at the office of the Secretary of the School Board.

Non-resident applicants for admission will not be entered on the roll of the College until the requisite examination is passed, and a permit for entrance, signed by the Chairman of the Committee on Non-Resident Pupils and the said Secretary, is presented. Such permit must be accompanied with certificate of vaccination, and a coupon showing the payment of the fee for the current quarter.

## RIGHTS AND PRIVILEGES OF GRADUATES.

---

- I. ELIGIBILITY FOR POSITIONS AS TEACHERS.—The graduates of the College who attain a final average in scholarship of at least eighty out of a possible one hundred are eligible for ten years after their graduation to any position in the primary or grammar schools of Baltimore. No graduate, however, will be appointed principal if he is under twenty-one years of age, or first assistant if under nineteen years.
- II. MATRICULATION AT JOHNS HOPKINS UNIVERSITY.—Graduates, on the recommendation of the College Faculty, are permitted to matriculate without examination at the Johns Hopkins University.

## PRIZES.

---

I. PEABODY PRIZES.—Mr. George Peabody, in his letter to the “Trustees for the Establishment of an Institute in the city of Baltimore,” expressed his desire that the said Trustees, “in order to encourage and reward merit,” shall distribute five hundred dollars every year, in money prizes, of sums not less than \$50 nor more than \$100 for each prize, to those graduates of “the public male High Schools now existing or which may hereafter be established,” who shall “be adjudged most worthy, from their fidelity to their studies, their attainments, their moral deportment, their personal habits of cleanliness and propriety of manners.”

By arrangement between the Trustees of the Peabody Institute and the Board of Commissioners of Public Schools, the annuity donated by Mr. Peabody is divided into three prizes of one hundred dollars each and four of fifty dollars each. These sums are distributed yearly, in the order of merit, to the seven young men standing highest among those members of the graduating class who have complied with the following condition of competition, viz.: The completion of the *full* course of study in *five* consecutive years.

II. THE “NEW SHAKSPERE SOCIETY PRIZE.”—The prize offered by “The New Shakspere Society” of London, consisting of a number of valuable pub-

lications of the Society, is annually awarded to that graduate who shall present the best essay on some subject connected with the plays of Shakspeare.

III. THE FREDERICK RAINÉ PRIZE.—Colonel Frederick Raine, whose death occurred early in 1893, left by will to the Mayor and City Council of Baltimore a bequest of \$200, with the condition that this sum shall be invested, and the income from the investment be annually applied to the purchase of a gold medal to be awarded to that member of the graduating class in Baltimore City College whose record is highest in the work of the German department.

IV. Prizes open to members of the College societies. These prizes are described on pages 39 and 40.

#### THE PUBLIC SCHOOL LIBRARY.

---

Students of the College have access to the books in this library, under the supervision of the Librarian, Mr. Joshua Plaskitt. On its shelves are more than seven thousand volumes of reference and high-class literature.

## COLLEGE ORGANIZATIONS.

---

### ALUMNI ASSOCIATION.

---

The graduates of the Baltimore City College, recognizing the advantages to be secured to themselves and the College by periodical reunions of the Alumni, organized themselves into a permanent association May 15, 1885.

"The aim of the association is to strengthen the bond of union of the graduates and former students, to perpetuate the affection they cherish for the institution, to foster the prosperity of the College by giving their support and sympathy to its faculty and officers."

The government and administration of the association are entrusted to an Executive Committee consisting of two (2) members from each class represented in the association.

The following alumni have held the office of president since its formation :

|            |                             |              |

The Bancroft and the Carrollton Societies annually contest in public for two gold medals donated by Professor Charles C. Wight, one for excellence in declamation and the other for skill in debate.

These two societies have each a Reunion Association, composed of former and present members.

The Bancroft Reunion Association annually offers a gold medal for highest excellence in essay writing, competition being limited to student members of the Bancroft Literary Association.

## THE AGASSIZ ASSOCIATION.

CHAPTER 233, BALTIMORE, MARYLAND (A).

## ALUMNI.

In 1851 Public Day for conferring academic honors was first observed, and since that time it has been observed annually. Those students who have satisfactorily completed the full term of study receive CERTIFICATES to that effect, signed by the Faculty, the Committee, the President of the Board and the Mayor of the city, with the seal of the city attached. The following are the names, year by year, of those who have thus graduated.

## RULES RELATING TO BALTIMORE CITY COLLEGE.

---

### I. COMMITTEE.

The legislative power over Baltimore City College shall be vested in the committee on said College.

### II. FACULTY.

The faculty shall consist of a principal, vice-principal and such professors and tutors as may be necessary for the proper working of the College. Meetings of the faculty to consult in regard to the interests of the College and for the transaction of such business as may properly come before them shall be called by the principal at such times as he may deem necessary, or when requested to do so by two or more of the professors.

### III. COURSE OF STUDY.

The full course of study for graduation shall extend over a period of five years, and shall include the English, French, German and Latin languages (Greek optional), History, Writing and Book-keeping, Arithmetic reviewed, Algebra, Geometry, Plane and Spherical Trigonometry and their applications, Analytical Geometry, Calculus, Physiology, Chemistry, Natural Philosophy, Astronomy, Rhetoric, Drawing, Political Economy and Civil Government.

Students who complete the course satisfactorily shall receive proper certificates.

## IV. CURRICULUM.

The curriculum shall be as follows:

## FIRST YEAR.

History of United States, History of England, Writing, Composition, Drawing, Natural Philosophy, English Literature, Latin, Book-keeping, Algebra, Geometry.

## SECOND YEAR.

Composition, English Literature, Book-keeping, Natural Philosophy, Drawing, Latin, German, Geometry, History of Rome, Mensuration.

## THIRD YEAR.

Rhetoric, Composition and Elocution, History of English Literature, Drawing, Latin, Chemistry, History of Greece, German, Greek (optional), French, Trigonometry and applications, Review of Mathematics.

## FOURTH YEAR.

English Literature, Constitution of the United States, Chemistry, Latin, Greek, French, Surveying and Navigation, German, Drawing, Analytical Geometry, Astronomy, History of Eastern Nations, Composition, Civil Government.

## FIFTH YEAR.

Latin, Greek, Calculus, English Literature, Logic, Mental Philosophy, Political Economy, French, German, Chemistry, Astronomy, Drawing.

No pupil shall be excused from any study as above arranged, without the consent of the committee; and any pupil who may be excused shall forfeit all right to contest for the graduating honors and prizes.

## V. EXAMINATION AND ADMISSION.

There shall be an examination of candidates for admission to the Baltimore City College annually in the month of June, to be conducted in such manner as shall be prescribed by the Board, and the result of such examination shall be submitted to the Board as soon thereafter as practicable.

All boys in the eighth grade of the grammar schools (not otherwise promoted) who are 14 years of age, of good moral character, and who shall pass an examination in the studies pursued in said eighth grade to the satisfaction of the committee, shall be entitled to admission. Boys not pupils of the public schools may be admitted to the Baltimore City College upon the same conditions as the pupils of said grammar schools; and notice of this privilege shall be given in the daily papers at least ten days before each annual examination. If any admitted student should not take his seat in the College within *one week* from the beginning of the term, he shall not be entitled to admission, unless the delay be caused by sickness or unavoidable absence from the city.

No candidate who has been guilty of truant-playing, or any other grossly improper conduct during the scholastic year, shall be examined or admitted without the authority of the Committee on Baltimore City College; and it shall be the duty of principals to report all such candidates to the committee for its action.

Boys of fourteen years of age who are not pupils of the grammar schools may be examined for admission at such times and on such conditions as may be deemed proper by the committee.

No pupil who has been removed from Baltimore City

College shall be readmitted, unless by special action of the committee.

#### VI. DUTIES OF THE FACULTY.

The principal shall be charged with the government of the school and the general supervision of its studies, subject to the advice and direction of the committee. He shall also have charge of the rooms, furniture, library, cabinets, apparatus and other property of the school, and shall be accountable to the Board for the proper use and preservation of the same. At the close of each year he shall present to the Board a report on the condition and wants of the school. In his absence the vice-principal shall have charge of the school.

The professors, severally, shall be responsible for the improvement of their classes, and for the safe-keeping of the furniture, etc., of their class-rooms.

The professor of writing and book-keeping shall act as secretary to the faculty, and perform all the clerical work incident to said position, and to the preservation of the necessary records.

#### VII. DISCIPLINE.

The professors, in their respective departments, shall maintain order, enforce obedience, and urge to application by such incentives as are consistent with these general regulations, avoiding at all times the use of harsh or opprobrious epithets.

Each professor shall keep a diary or register of conduct, in which he shall note any act of misconduct, whether ordinary or special, which occurs in his presence or which comes properly under his notice, with the amount of his censure expressed in demerit

marks. He shall leave his diary with the principal, when required, once a week or oftener; and it shall be the duty of the principal to examine such entries and approve them, or (after consultation with the professor) make such change in said demerit marks as in his opinion shall be just, and then the same shall be carried into the demerit ledger; but all such changes which may not meet the approval of the professor shall be reported to the committee for its action, and such entry on the ledger shall be final, unless changed by a vote of the faculty or disapproved of by the committee.

The students are required to be punctual in their attendance, diligent in their studies, respectful and polite towards their teachers, kind and civil in their intercourse with each other, and to observe order and decorum in going to and returning from school.

Offences against the government of the school shall be classed as *ordinary* and *special*; the first including everything which hinders the progress of study, or is in its nature improper, and which might be avoided by due attention on the part of the student, but which is rather the result of carelessness than a deliberate purpose to offend; and the second including every kind of intentional misconduct.

The particular acts embraced under the class of ordinary offences shall be made known officially, from time to time, as the exigencies of the school may require; and for each of these offences there shall be, in the first instance, a demerit mark of one. If the offence be committed after a special warning by the professor, it shall be so recorded, and incur a demerit mark of two; and an additional demerit mark for each additional

warning ; provided, however, the demerit marks for for this class of offences shall not exceed five.

The demerit for lateness and absence, when the detention is not occasioned by sickness, necessary attendance on the sick, or some equally imperative cause, shall be as follows : Lateness, ten minutes or less, one ; more than ten minutes and not more than thirty, two ; more than thirty minutes and not more than the first recitation period, three ; any larger part of the day, four ; absence a whole day, five. This does not include truant-playing, which is embraced under the head of special offences. When a student has been late or absent it shall be his duty, on his appearance at the school, to deliver to the principal a note, signed by his parent or guardian, stating the length and cause of such detention, in order that it may be judged of under this rule.

No student, after entering the school in the morning, shall leave, under any pretext whatsoever, before the close of the session, without the written permission of the principal ; and it shall be the duty of the principal to record in his diary the name, the time, and the cause of such permission when granted.

When any offence has been committed which seems to require more than usual notice, the professor in whose presence it occurred shall either send the offender at once to the principal, or cite him to appear before the faculty, according to the grade of the offence ; and every student shall promptly report himself to the principal, or answer his citation before the faculty, as required.

Every act of truant-playing shall, in the first instance, incur a demerit mark of ten for each day of such absence, accompanied with admonition, public

or private, according to the circumstances of the case; and if repeated after such admonition, the truant shall be indefinitely suspended, and his case reported at once to the committee.

Any student presenting a note or other writing falsely purporting to be signed by his parent, guardian or other responsible person, shall be deemed guilty of a very grave offence, and shall be dealt with by the committee in their discretion.

Any student losing, destroying or injuring any property of the Board, teachers, or of his fellow-students, shall make adequate pecuniary compensation, irrespective of whatever school censure the circumstances of the case may require.

The parents or guardians of pupils habitually indolent, or so irregular in their attendance as to prevent their advancement with their classes, will be requested to withdraw them, and in case of refusal, such pupils shall be reported to the committee for expulsion.

For any gross offence, which seems to require it, a student may be suspended by the principal, and the case reported immediately to the committee.

When the number of a student's demerit marks in one quarter amounts to 50, it shall be the duty of the principal to suspend him. If then the student and his parent or guardian appear before the faculty, and give such assurances as may lead them to believe there will be a decided reformation, they may, in their discretion, re-admit him on trial, or refer his case to the committee at their next stated meeting. Should he again, after such re-admission, accumulate 50 demerit marks before the end of the next quarter, he shall be indefinitely suspended by the faculty, and reported for dismissal to the committee at the next stated meeting.

All suspensions, whether by the principal or the faculty, shall be recorded on the minutes. Students under suspension, as all others, are required to attend the term examinations.

A student may be promoted or degraded at any time by a vote of the faculty.

Each professor shall keep a daily record of recitations, estimating the value of each on a scale running from 0 to 100. At the end of the quarter these will be averaged. From the averages of the several professors a general average will be obtained, called the Quarterly Averages of Scholarship. At the end of each term (the term consisting of two quarters) a rigid examination of the classes will be held in the studies of the term, and the results expressed numerically on a scale of 100. The average of these results, combined with the quarterly averages of the same term, will give the Term Averages of Scholarship. The average of the term averages of scholarship for any given scholastic year will give the Annual Average of Scholarship. The average of scholarship for the fourth and fifth years will be the Final Average of Scholarship.

The marks of demerits which a student may have incurred during the quarter will be deducted from one hundred, which will give the Quarterly Grade of Conduct. The average of the two quarterly grades will give the Term average of Conduct. The average of all the term averages will give the Final Average of Conduct.

The quarterly average of scholarship, combined with the quarterly grade of conduct, will give the Quarterly Average of Merit. The term average of scholarship, combined with the term average of conduct, will give the Term Average of Merit. The final average of

scholarship, combined with the final average of conduct, will give the Graduating Average. The student whose graduating average is the highest, will stand No. 1, the one next highest No. 2, etc.

Unless otherwise arranged by the faculty, the student whose graduating average is the highest, *i. e.*, who stands No. 1, shall at the commencement deliver the honorary oration; the one who graduated No. 2, *i. e.*, whose graduating average is second in order of merit, shall deliver the valedictory; and the one who graduates No. 3, shall deliver the salutatory address.

The three students who stand the highest will each be entitled to a Peabody prize of the first grade (one hundred dollars), and the next four will each be entitled to a Peabody prize of the second grade (fifty dollars).

Those students in all the classes, whose term average of merit is not less than ninety, shall be ranked as Distinguished; and those whose term average is less than ninety, but not less than eighty, shall, in like manner, be ranked as Meritorious. The rank of graduates in this respect will be announced. For promotion from the first year to the second, the annual average of scholarship shall be sixty; from the second to the third, sixty-five; from the third to the fourth, seventy; from the fourth to the fifth, seventy; and no student will be allowed to graduate with his class whose final average of scholarship or whose graduating average falls below seventy; provided, however, that no student shall be allowed to graduate who shall fall below sixty in any one department of study. In addition to the above requirements for promotion, students must obtain an average of at least sixty in each study, but the faculty may in their discretion promote a student who is deficient in but one subject.

Those students who leave the College at the close of the scholastic year, not having finished the full course, but whose deportment and scholarship are up to the required standard for promotion to the next class, shall publicly receive a certificate of said standing, at the time of the distribution of the prizes and diplomas of the graduating class.

#### VIII. GENERAL RULES.

The rules and regulations for the public schools, both in regard to teachers and pupils, in so far as they are not superseded by the foregoing, shall be in force in Baltimore City College.
